# El Capitalismo de Vigilancia

Shoshana

7.1.66

# de Vigilancia

HOLA A TODOS, MI NOMBRE ES SHOSHANA ZUBOFF, SOY UNA SOCIÓLOGA Y AUTORA DEL LIBRO DE 2018, "LA ERA DEL CAPITALISMO DE LA VIGILANCIA".

EN ESTE, HABLO SOBRE CÓMO COMPAÑÍAS COMO GOOGLE, FACEBOOK O TWITTER RECOLECTAN SECRETAMENTE NUESTRAS EXPERIENCIAS DE VIDA PARA CREAR MATERIA PRIMA PARA VENDER A LOS GOBIERNOS Y A LAS COMPAÑÍAS.

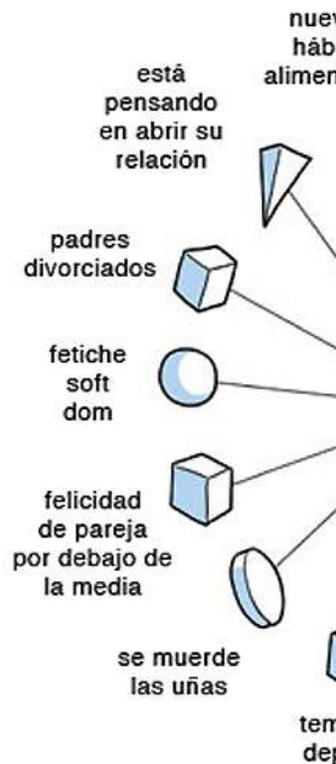

YA HEMOS ECHADO UN VISTAZO TRAS BAMBALINAS SOBRE EL NAVEGADOR CHROME, PERO ME GUSTARÍA AGREGAR UN CONCEPTO IMPORTANTE:

**EL TEXTO SOMBRA.**

CUANDO PUBLICAMOS UNA IMAGEN EN UNA PÁGINA WEB

ADEMÁS DE ESO, TODO LO QUE TECLEAS O PICAS MIENTRAS NAVEGAS POR LA WEB, SIN IMPORTAR CUÁN TRIVIAL O EFÍMERO SEA,

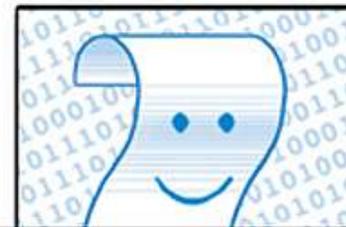

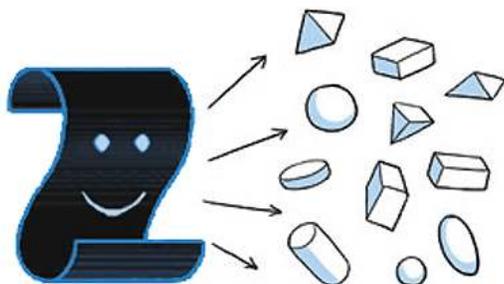

CUANDO PUBLICAMOS UNA IMAGEN EN UNA PÁGINA WEB, ESCRIBIMOS UN BLOG, CHATEAMOS, TUTEAMOS O LE DAMOS "LIKE" A ALGO, SOMOS AUTORES DE UN TEXTO PÚBLICO MULTIMEDIO.

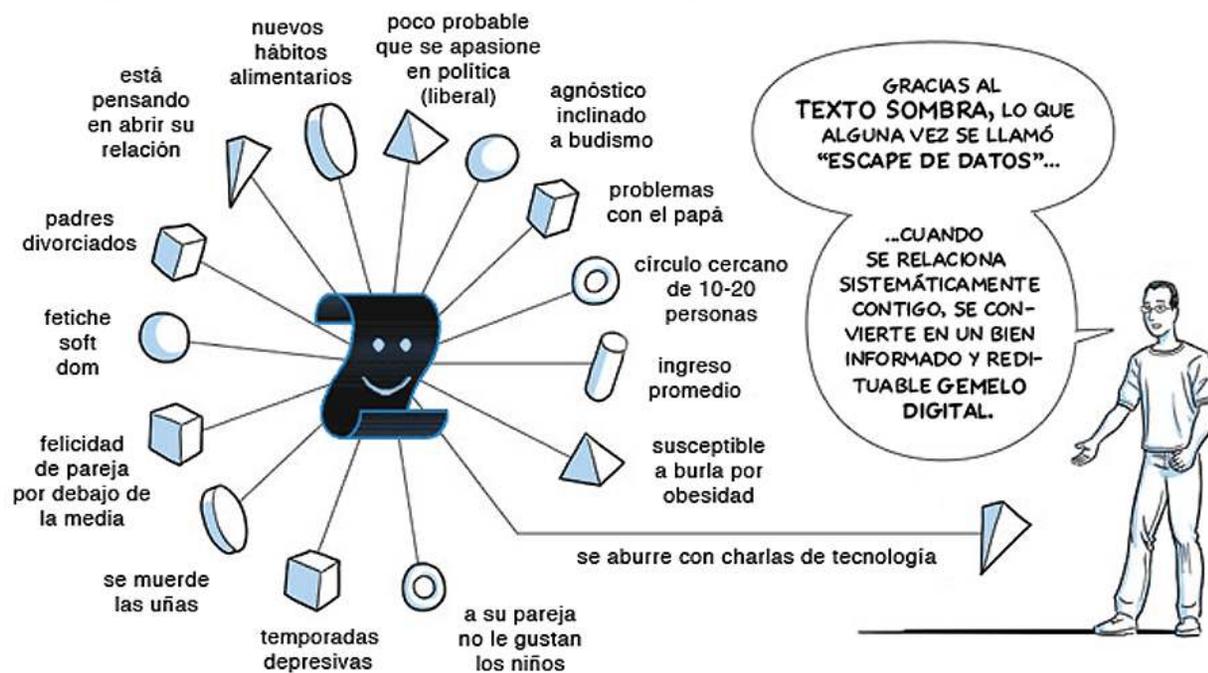

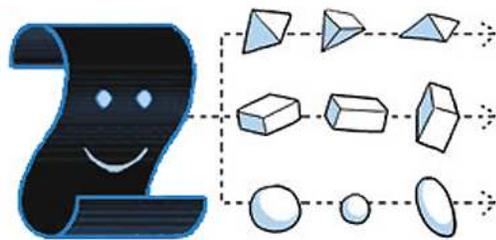

ADEMÁS DE ESO, TODO LO QUE TECLEAS O PICAS MIENTRAS NAVEGAS POR LA WEB, SIN IMPORTAR CUÁN TRIVIAL O EFÍMERO SEA, SERÁ GRABADO EN UN SEGUNDO TEXTO.

EN SÍ MISMA, CADA UNA DE ESTAS PARTÍCULAS DE PERSONALIDAD PARECERÍA ALEATORIA, IRRELEVANTE Y SIN VALOR.

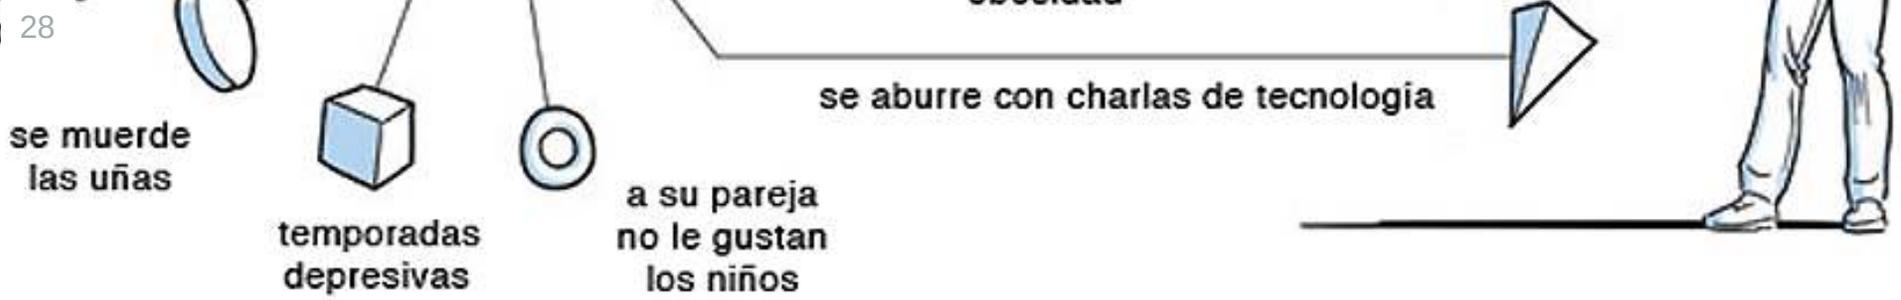

PERO, CUANDO SON OBTENIDAS A GRAN ESCALA Y ANALIZADAS POR LOS ALGORITMOS DE GOOGLE, ESOS DETALLES INSIGNIFICANTES EMPIEZAN A FORMAR PATRONES.

MIENTRAS QUE EL PRIMER TEXTO PÚBLICO ES VISIBLE PARA NOSOTROS, EL TEXTO SOMBRA SE NOS OCULTA...

...ES DE "SOLO LECTURA" PARA VIGILANTES CAPITALISTAS.

SOBRE NOSOTROS, PERO NO PARA NOSOTROS.

to keep from getting fat”*

*Florenz Ziegfeld*

**L**IGHT a Lucky Strike when you are tempted to eat between meals—they satisfy the craving for sweets and rich pastries. That's why thousands now reducing smoke them constantly.

A year ago 20,679 physicians put themselves on record in confirmation of the fact that Toasting makes Lucky Strike less irritating to the throat than any other cigarette. That's because Toasting removes impurities. Toasting also improves the flavor of the finest tobaccos. That's why the delicious toasted flavor of Luckies makes them a delightful alternative for things that make you fat. Avoid harmful methods to reduce. This way is merely common sense.

Men who keep fit have long employed it. They don't believe in tiresome, expensive ways. They do believe that Luckies do not hurt the wind or impair the physical condition—facts upheld by prominent athletes, who are in a position to know the truth.

When you are offered a sweet . . . when it comes time for pies and pastries . . . pass them by and take a Lucky. Then you'll never miss sweets.

Florenz Ziegfeld,  
“Glorifier of the American  
Girl” and Jessie Ackerman  
and Gladys Glad of Mr.  
Ziegfeld's new success,  
“Whoopie.”

# THE GREAT HACK

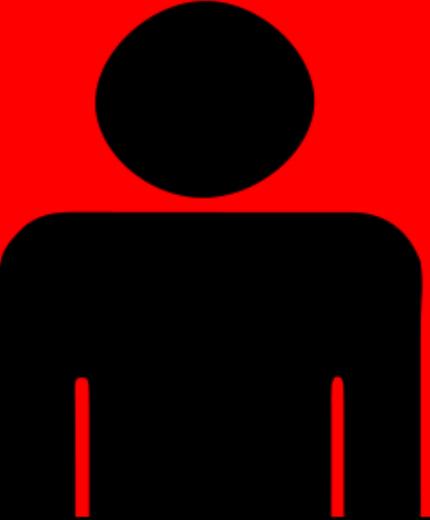

# How media manipulation works

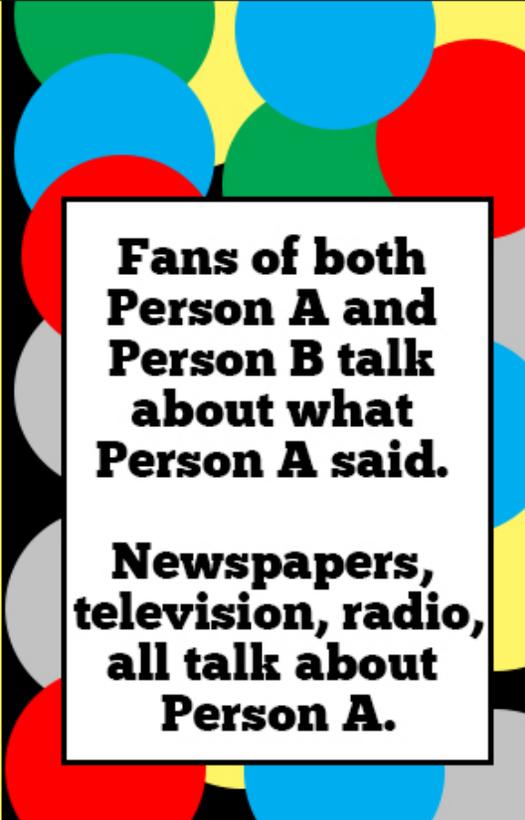

## A Public Service Announcement

**Person A Says something bad.**

**Person B responds to Person A online or in the media.**

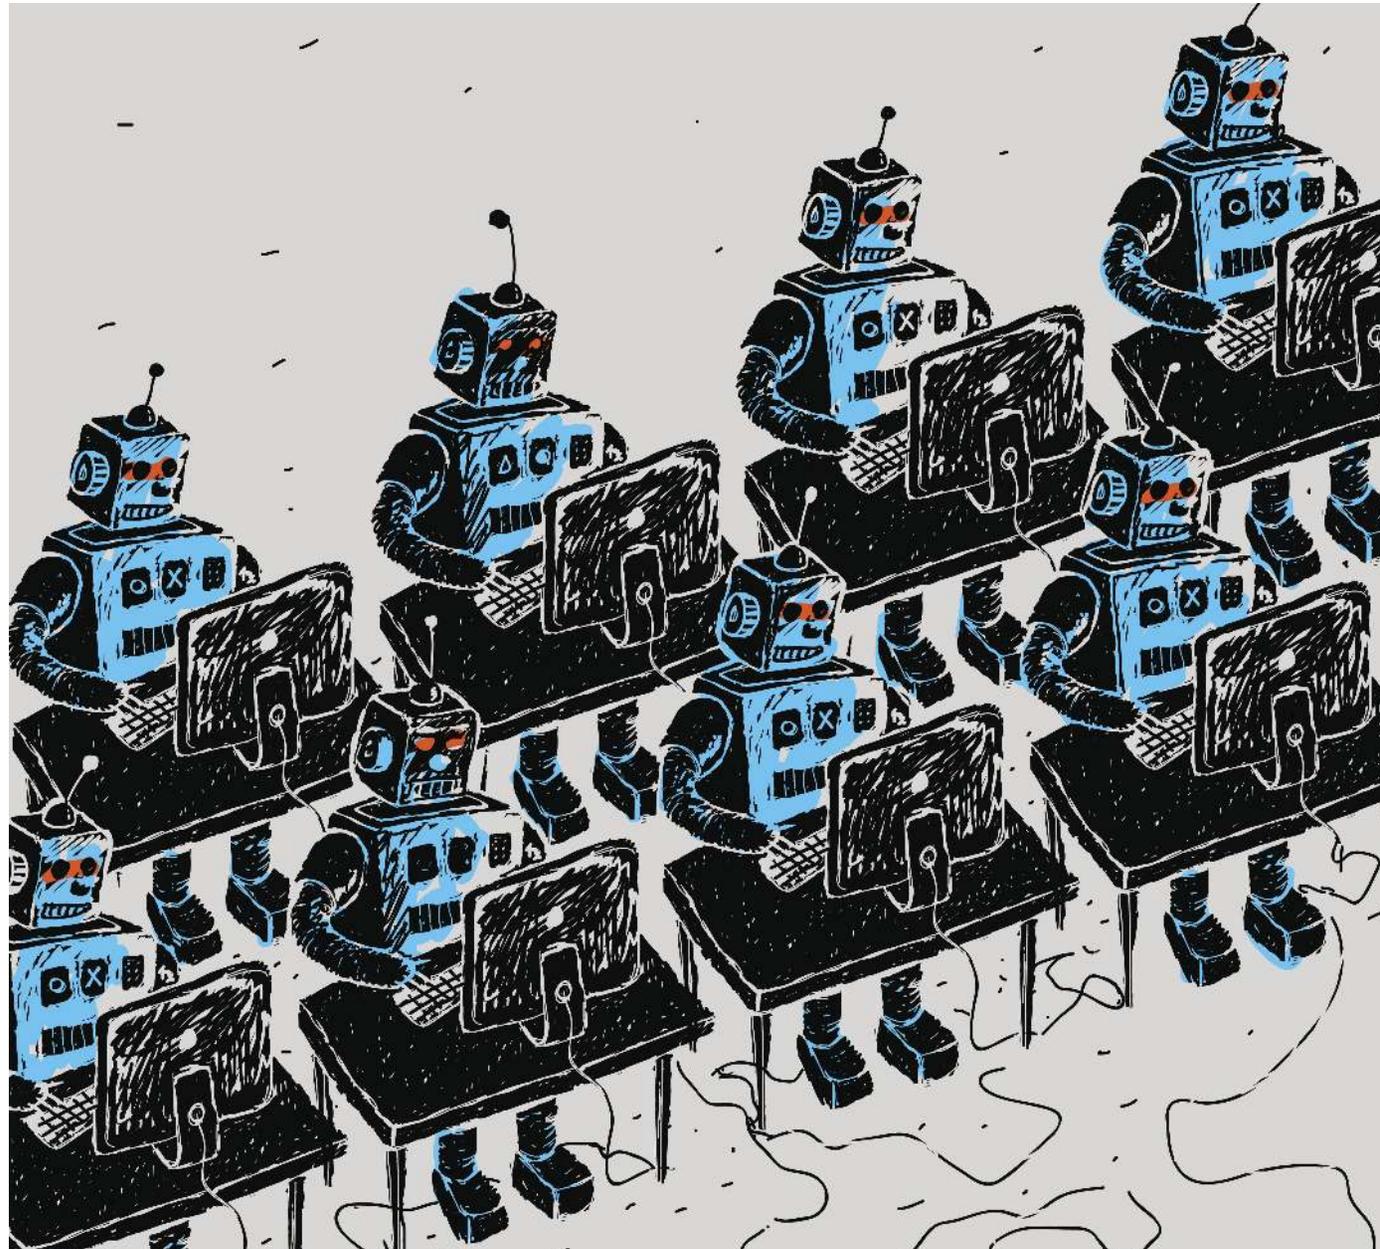

**Fans of both Person A and Person B talk about what Person A said.**

**Newspapers, television, radio, all talk about Person A.**

By responding to Person A, repeating the response of Person B, or participating in any way, you are furthering the communication strategy of Person A.

Person A has been trained to say things Person B and fans of Person B will respond to because all mentions, good or bad, advance Person A's strategy to dominate the news.

All Person A wants is your response, good or bad. Any response is seen as advancing the strategy of Person A.

20 de julio de 2017 - 🌐

¿QUÉ ES SOSAFE Y CÓMO LO PUEDO OBTENER?

¡Muy fácil! SOSAFE es una aplicación gratuita que puedes descargar desde CUALQUIER SMARTPHONE y te conecta directamente con los patrulleros de Seguridad Providencia en 3 simples pasos.

¿CÓMO? SOSAFE funciona como un BOTÓN DE EMERGENCIA, una vez que lo tienes (configurado con tus datos y contactos), solo debes hacer click en "Necesito Ayuda", determinar la naturaleza de tu emergencia (robo, accidente, incendio, etc.) y el patrullero que se encuentre más cerca de ti, acudirá en ayuda. MÁS INFO EN <https://goo.gl/wYZKrg>

¡DESCÁRGALO AHORA Y PROTÉGETE DE LA DELINCUENCIA!

120 años

## PROTÉGETE DE LA DELINCUENCIA

### ¿QUÉ HACER EN CASO DE EMERGENCIA?

1. Aprieta el botón SOS en tu celular.
2. Aprieta el botón NECESITO AYUDA.
3. Aprieta el botón que corresponda al tipo de emergencia que tienes: Seguridad, Bomberos, Ambulancia. (No necesitas marcar el 1414).
4. Un patrullero de Seguridad Providencia llegará rápidamente al lugar donde tú estás.

# ¿Quieres Ganar las Próximas Elecciones?

Te ayudamos a lograrlo con smartanalytics

## Bigdata

Las próximas elecciones van a ser intensivas en conocimiento. La información hará la diferencia entre ganar o perder

## ¿Quieres aumentar la votación?

Con smartanalytics puedes aumentar hasta en un 50% de tu votación

## Georreferenciación de Votos

Nuestra plataforma GeoIntelligence posee georreferenciados a todos los votantes y permite realizar análisis geoespaciales para optimizar el trabajo de terreno

Fuente: Elaboración propia con base en datos de Mercado Público y solicitudes de transparencia.

(\*) Las cifras incluyen gasto en licencias de software Sosafe.

(\*\*) Para convertir a pesos chilenos (pc) se usó la equivalencia 1 dólar = 680 pc y 1 UF = 27.500 pc.

Hecho por @pachamaltese usando ggplot2 y chilemaps.

# Servicios Electorales

La información es la clave para ganar

## Diagnóstico de Electividad

- Conozca dónde tiene más oportunidad de ganar y cuál es la mejor estrategia.
- Evolución histórica de las tendencias.
- Estudios de simulaciones para establecer cantidad de votos requeridos para ganar.

## Bigdata de Votantes

- Obtenga información detallada de los votantes del área donde va a competir.
- Triangulación de datos.
- Perfiles inteligentes de votantes.

## Inteligencia Artificial

- Sepa cómo optimizar su campaña utilizando inteligencia artificial.
- Implementación de modelos automatizados.
- Aprecie las ventajas de la información en tiempo real.

## Mapas Electorales

- Conozca la ubicación de sus votantes a través de mapas georreferenciados.
- Establecimiento de rutas óptimas de campañas utilizando modelos de inteligencia artificial.
- Observe dónde está su equipo de campaña en tiempo real.

## Diseño de Audiencia a candidatos

- Definición de electores potenciales de candidatos.
- Perfiles de electores.
- Diseños de mensajes personalizados.

## Observatorio comunal y regional

- Seguimiento de temáticas comunales y regionales.
- Procesamiento de actas con inteligencia artificial.
- Planes de intervención pública.

## Enriquecimiento de bases de electores

- Enriquecer las bases de datos de electores con información adicional.
- Construcción de perfiles inteligentes de los votantes.

## Desarrollo softwares personalizados para las elecciones

- Diseñamos aplicaciones de bajo costo para gestionar su campaña.
- Uso de nuestra plataforma GeoIntelligence para gestionar de manera inteligente su campaña.

# Han Confiado en Nosotros

### Inteligencia Artificial

- Sepa cómo optimizar su campaña utilizando inteligencia artificial.
- Implementación de

### Mapas Electorales

## SO WHAT'S THE DIFFERENCE?

While they are often used interchangeably, these two terms are actually very different. They have a common goal of protecting sensitive information, but vary greatly in their methods.

## Data Security VS User Privacy

The availability, integrity, and confidentiality of information (also known as the AIC triad)

Refers to the policies used to prevent unauthorized access to consumers' personal information

Protects valuable data from breaches, theft, and exploitation

Ensures that only authorized individuals have access

The right for consumers to be free from unwanted attention and/or surveillance

Refers to the responsibility of proper handling, distribution, and storage of user data

Governs how consumer information is being collected, shared, and used

Sets the standards for who is authorized to access information

"Catch the Magic of Linux..."

### SO WHAT'S THE DIFFERENCE?

While they are often used interchangeably, these two terms are actually very different. They have a common goal of protecting sensitive information, but vary greatly in their methods.

## Data Security VS User Privacy

The availability, integrity, and confidentiality of information (also known as the AIC triad)

Refers to the policies used to prevent unauthorized access to consumers' personal information

Protects valuable data from breaches, theft, and exploitation

Ensures that only authorized individuals have access

The right for consumers to be free from unwanted attention and/or surveillance

Refers to the responsibility of proper handling, distribution, and storage of user data

Governs how consumer information is being collected, shared, and used

Sets the standards for who is authorized to access information
